Lamination for Home,
Education and Business

www.gbceurope.com

How to Choose - Lamination

1 What is your purpose and how often to you want to laminate?

**PROFESSIONAL
(EXTERNAL DOCUMENTS)**

P

Designed to meet specific user needs.
Peel n Stick - the perfect pouch for signage.
Organise Pouch - specifically designed for all filing needs.

**BUSINESS
(INTERNAL & EXTERNAL)**

B

More specialised applications such as Matt, for documents to avoid light glare eg. menus & maps.
Medium to high rigidity for medium to frequently handled documents such as training materials.

**INFORMAL
(INTERNAL DOCUMENTS)**

I

Lamination for general everyday documents such as telephone lists, reference documents, business cards, or coloured to highlight specific areas.
Low to medium rigidity for occassional handling.

Simple, affordable, lamination at the touch of a button - *inspired!*

See page xxx

GBC® Equipment

Once you have decided on the application, size, thickness and finish – you will choose which GBC® system is the best for you. Either GBC® Heatseal™ which is ideal for any pouch lamination in the home, office or education environments, or GBC® RollSeal™ for higher volume usage.

AutoUltima™ Laminator

Minimum effort...Maximum results.

Feeds, Laminates and trims – all at the touch of a button.

GBC AutoUltima™ makes lamination so quick and simple it is designed to support multiple users throughout the day, anyone in your company can laminate single or multiple documents at the press of a button. As simple to use as a photocopier, just insert your documents into the feeder, and press start – the AutoUltima does the rest!

- Ease of use / One button control
- Automatic feeder, simply load up to 50 documents in the feeder and walk away
- Once you have pressed start, you can leave the AutoUltima Pro to reach optimum temperature before it automatically feeds, laminates and trims to size up to 50 documents in less than 15 minutes
- Fast throughput, 800mm per min (204 A4 per hour)
- The documents are quickly and perfectly laminated and aligned in the collection tray just waiting for you to pick them up; you can even combine various lamination jobs without worrying about standing by the machine
- No more time spent loading individual pouches and feeding each pouch one by one into the laminator and you have the perfect solution for items that may not be suited to a larger roll laminator
- Uses EZ load roll film and technology (see next page)

Model	Lamination Width	Product Code
AutoUltima	A3 Max (324mm)	4400095

Feeds, Laminates, Trims – at the touch of a button!

RollSeal™ Ultima 35 Ezload™

The perfect laminator for offices and schools. Versatile and economical, the Ultima 35 Ezload™ brings high volume, foolproof lamination to all.

- Unique Ezload™ technology makes it impossible to load films incorrectly
- Exceptionally fast 1 minute warm up time
- Built-in, patented safety features for worry-free laminating
- Laminates anything from small, unusually shaped items to continuous banners and posters (up to 150m in length)
- Ten heat settings to ensure perfect results on a wide range of material and film thicknesses
- Accepts film thicknesses, from 2x42.5 microns (85 total) to a tough, durable 2x250 microns (500 total)
- Laminates at 1 metre per minute (that's just 13 seconds for an A4 document)

Combination Clip	Safety Pin/Clip	n/a	100	n/a	IB505638
Chain	27" neckchain	760 mm	100	n/a	EB100000

Badge Clips

■ Plastic or Metal Badge holders with either clip or safety pin for securing badges, passes and ID cards to clothes.

Badge Holders

■ Plastic wallets to display visitor, identity or access cards. Pre-punched for clips or chains.

Neck Chains

■ Light weight chromium plated chains to display or carry identity passes or access cards.

Plastic Loops

■ Discreet, clear plastic loops to affix laminated address labels and/or identity cards to luggage, bags or personal items.

Luggage Straps

■ Simulated leather straps to affix laminated identity or business cards to briefcases and luggage.

Specific Items

■ Specific kits including pouches with pre-punched slots, and loops or clips. Useful and valuable kits for many uses including luggage tags, and specific official sized documents.

Accessories

For your laminated documents an accessories range has been designed to perfect and personalise your document as desired.

Carrier	A4 size	up to A4	5	EK04000
Cleaning Sheet	A4	n/a	5	EK50000

Round Corner-Cutter

- Achieve the professional look by round cornering photos, mouse pads and even laminated sheets and posters to negate corner damage.

Photo-Punch

- A handy scissor design specifically for the use of precise trimming out of ID photos prior to laminating and ID card creation.

Slot Punches

- Available in two forms – Desk Top or Hand – to punch a 16 x 3 mm rectangular slot in laminated cards/sheets. Use with GBC® Badge Clips, Luggage Straps and Loops.

Carriers & Cleaning Sheets

- Protective carriers are to be used when the media is uncertain or the relationship between media and laminator heat speed is unclear. Protective carriers also assist in maintaining laminators rollers free of 'adhesive ooze-out' minimising wear and tear.
- Cleaning sheets should be used to remove excess adhesive or other non-desirable material from the laminator rollers to achieve optimum results.
